APPENDIX 4 – The ICF Canoe Slalom World Ranking Points formula

Canoe & Kayak events & ICF points calculation

A. Events

MK1	Men's Kayak
WK1	Women's Kayak
MC1	Men's Canoe
WC1	Women's Canoe

B. Ranking list

The ICF Canoe Slalom Ranking List is established by taking the average of the best 5 ICF Ranking Points achieved by any athlete participating in the ICF Canoe Slalom Ranking Series of events.

Events included in the calculation of the ICF Canoe Slalom Ranking span a two-year period. Therefore, all races in the two-year period directly before the relevant release date are considered and the best 5 counted for each Athletes ranking. Note: due to the pandemic for the 2023 season the period the ranking is calculated from may vary from the previous 2 years.

Athletes having 5 or more results, whilst still averaging the best 5 results, are ranked above all Athletes having only 4 results; those with only 4 results are ranked above those with 3 results. Athletes with 3 results are ranked above Athletes with 2 results and Athletes with 1 result are ranked at the bottom of the list.

C. ICF points Calculation

1. Principle

ICF points are calculated separately for each phase (Heats, Semi final or Final) in which a Athlete participates. The lowest point value out of those 3 is the ICF points earned by the Athlete for that event at the competition.

2. General Formula for Race ICF Points

$$\text{IcfPoints} = \text{PhaseOffset} + \frac{\text{PhaseFactor} \times \text{Score}}{\text{ScoreLeader}} - \text{PhaseFactor} + \text{QualityFactor}$$

- **Phase Offset**

Phase	Phase Offset
Heats	20
Semi final	10
Final	0

- **Quality Factor**
 - o ICF competition Level 1 and Level 2

For ICF CSL World Cups, World Championships and Olympic Games the Quality Factor is "0"

- o ICF competition Level 3

The "Quality Factor" is calculated by identifying the five (5) competing Athletes who are ranked highest on the ICF CSL Ranking list. The ICF Ranking points for these Athletes are averaged and this becomes the "Quality Factor" for that event.

Any entered boat who receives a DNS in both Heats runs will not be considered in the Quality Factor calculation.

- **Score:** results of the boat in seconds
- **Score Leader:** results of the fastest boat in that phase in seconds

3. Sample Calculation of ICF Points

a) Example 1

- Competition phase → Final, therefore **Phase Offset = 0**,
- **Phase Factor** = 150
- Competition is a World Championships, therefore **Quality Factor** = 0
- Boat 1 score = 89.60 seconds
- Boat 2 score = 90.82 seconds
- Boat 3 score = 141.91 seconds

*Points for Boat 1 (winner of finals) = $0 + ((150 * 89.6) / 89.6) - 150 + 0 = 0.00$ Points*

*for Boat 2 = $0 + ((150 * 90.82) / 89.6) - 150 + 0 = 2.042 = 2.04$*

*Points for Boat 3 = $0 + ((150 * 141.91) / 89.6) - 150 + 0 = 87.572 = 87.57$*

b) Example 2

- Competition phase = Semi Finals therefore phase offset = 10,
- **Phase Factor** = 150
- Competition is a World Cup, therefore **Quality Factor** = 0
- Boat 1 score = 101.76 seconds
- Boat 2 score = 100.86 seconds
- Boat 3 score = 103.19 seconds,

*Points for Boat 1 = $10 + ((150 * 101.76) / 100.86) - 150 = 12.8256 = 12.83$*

*Points for Boat 2 (winner of the semifinal) = $10 + ((150 * 100.86) / 100.86) - 150 = 10$*

*Points for Boat 3 = $10 + ((150 * 103.19) / 100.86) - 150 = 13.4561 = 13.46$*

For Boat 3 the semi final ranking points are better than ranking points they score in the finals phase due to a "50" second penalty received in the Finals, their semi final points would be used as their ranking points for this race.

The calculation of ranking points for the heats phase would follow the same formula as above using 20 as the Phase Offset.

Kayak Cross Events & ICF Points Calculation

A. Events

MX1	Men's Kayak Cross
WX1	Women's Kayak Cross

B. Ranking list

The ICF Kayak Cross Ranking List is established by the addition of the best 5 ICF Ranking Points achieved by any athletes participating in the ICF Kayak Cross Ranking Series of events.

Events included in the calculation of the ICF Kayak Cross Ranking span a two-year period. Therefore, all races in the two-year period directly before the relevant release date are considered and the best 5 are counted for each Athletes ranking.

Athletes having 5 or more results, whilst still adding the best 5 results, are ranked above all Athletes having only 4 results; those with only 4 results are ranked above those with 3 results. Athletes with 3 results are ranked above Athletes with 2 results and Athletes with 1 result are ranked at the bottom of the list.

C. ICF points Calculation

1. Principle

ICF points are attributed from the allocation table based on the final results of a competition in which an Athlete participates and depending on the level of the competition.

2. Point (P) allocation table

Final Ranking	Points (P)	Final Ranking	Points (P)	Final Ranking	Points (P)	Final Ranking	Points (P)	Final Ranking	Points (P)
1	50	11	30	21	20	31	10	41	2

Special cases during qualification phase:

Qualification Phase Results	Points (P)
DNF	1
FLT	1
RAL	0
DSQ	0
DNS	0

Competition level factor (CLF)

Competition Level	CLF
Olympic Games, ICF World Championships	2
ICF World Cup, Continental Championships & Continental Games	1
ICF Ranking Competition	0.5

Only the Continental Championships from your home continent can be counted as part of the 5 best competitions.

1. General Formula for Race Points

$$ICF\ points = P \times CLF$$

CALCULATION OF POINTS FOR FEMALE ATHLETES DURING PREGNANCY

The points for an Athlete who becomes pregnant will be frozen at the value of the first release date following the time they cease competition. The Athletes points will remain at this value for the next 24-month period and they will retain the ICF Ranking relevant to this point value.

The Athletes Federation must write to the ICF Secretary General and the Chair of the Canoe Slalom Committee to advise that their Athlete will not be competing due to pregnancy, what date they expect to cease competition and that they wish their ICF Ranking points to be frozen for up to a 24 month period. They must also provide a medical certificate confirming the pregnancy.

If the Athlete returns to competition within 24 months, they will earn points and be newly ranked. Their new post pregnancy competitions will be used in the calculation of their ICF Ranking. In the first instance the points earned at their first post pregnancy competition will be combined with the best 4 of their pre pregnancy races to produce a new ranking. Then the two new competitions plus their best 3 pre-pregnancy points etc. Once they have competed in 5 competitions post pregnancy their ranking will be calculated on these 5 competitions and all the points from the pre pregnancy races will be removed.

In all cases, 12 months after the Athlete has recommenced competition all the points earned prior to the pregnancy will no longer be counted and will be removed. The ranking will be calculated on any points earned since returning to competition and the Athlete will be ranked accordingly.

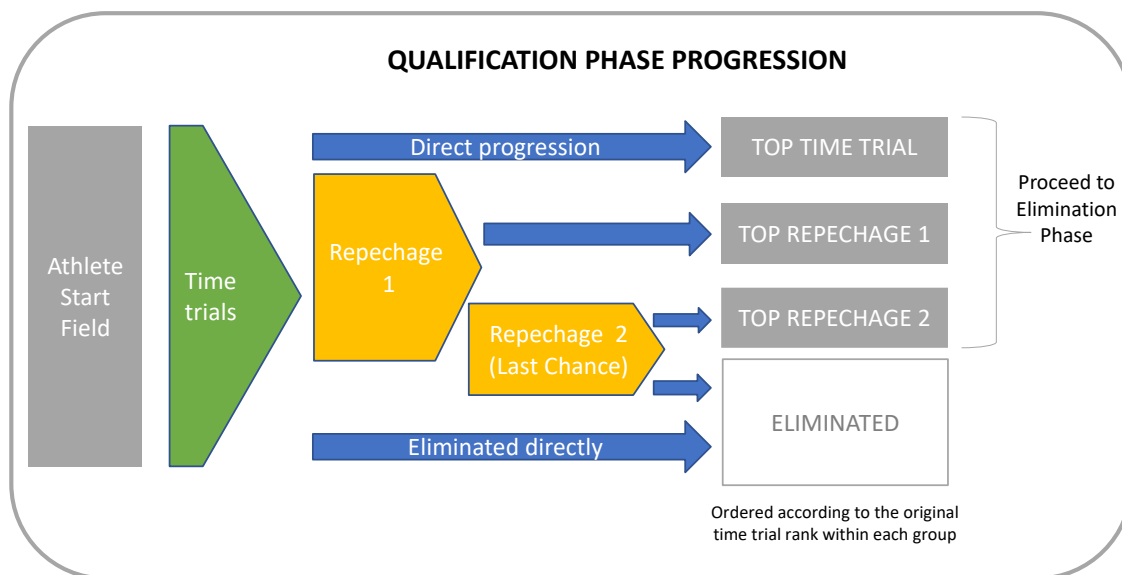

If after 24 months the Athlete does not return to competition the points earned from pre pregnancy races will be deleted and the Athlete will be removed from the ranking list at the next release date.

APPENDIX 5 – World Cup Entry Policy

To enter an ICF Canoe Slalom World Cup in Canoe & Kayak events in 2023 an Athlete must be listed on the current ICF Canoe & Kayak World Ranking.

APPENDIX 6 – Kayak Cross Qualification Phase Format

The Qualification phase must include the Time Trials and may also include Repechage 1 & 2. Athletes may be eliminated at the end of Time Trials or Repechage 2 (Last Chance); see diagram below.

From the Time Trials some Athletes will progress directly to the Elimination Phase based on their Time Trial rank. If no repechage system is in place, then the remainder will be directly eliminated.

If using a Repechage system then the identified number of Athletes, depending on entries (see tables below), will proceed through Repechage 1 and Repechage 2 (Last Chance) where they will have the possibility to qualify for the Elimination Phase and/or be re-ranked.

Following the Qualification Phase first, all the Athletes who qualified directly from the Time Trial component will be ranked, followed by Athletes who qualified via Repechage 1 then the Athletes from Repechage 2 (Last Chance) and finally Athletes who are eliminated.

In each Qualification Phase grouping (Time Trials, Repechage 1 or 2 or eliminated Athletes) Athletes will be ranked within each group based on their original Time Trial rank. Eg In Repechage 1 all first placed Athletes will be ranked by their Time Trial rank above all second placed Athletes and the same process for Repechage 2 (Last Chance) until all places are filled.

Athletes eliminated directly from the Time Trial will be ranked, by their time trial rank, below all athletes eliminated in Repechage 2 (Last Chance). From Repechage 2 (Last Chance) all eliminated athletes ranked 2nd will be ranked above all eliminated athletes ranked 3rd etc.

All other rules as outlined in Chapter 16, but not specifically covered in this appendix, apply during Repechage 1 & 2.

When using the Repechage system, the tables below show how many Athletes will progress from Time trials directly, or Repechage 1 or 2 based on the number of entries.

APPENDIX 7 – Kayak Cross event format at the Olympic Games

At the Olympic Games, the Kayak Cross Qualification phase must be run with a repechage phase as described in the Appendix 6

The Elimination phase must be run according to the bracket table described in the Appendix 8-B.

The Elimination phase will include a small final for each event (WX1 and MX1). The small final will be held between the Semifinals and the Final according the bracket table described in the Appendix 8-D.

APPENDIX 8 – Kayak Cross bracket tables

The progressions from the Kayak Cross Qualification phase to the brackets of the Elimination Phase will be as follows:

- If the Qualification phase is run with Time Trials only , refer to sub-appendix 8-A
- If the Qualification phase is run with a repechage (see Appendix 6), refer to sub-appendix 8-B and 8-C
- If the Elimination phase is run with a Small Final, refer to sub-appendix 8-D
